

FAQs

What is my style?

Our most loved photographs are ones that capture a natural moment, emotion or expression using the natural light and environment. I believe it is more fun being in a comfortable environment than going to a studio.

I will shoot several naturally posed group shots, however I encourage clients to relax, enjoy time with the family and allow me to work around them so that a more natural moment can be captured.

I work hard to bring a sense of fun and positivity to the session. I play games with children and use colourful props to further enhance the picture.

Where does the photo session take place?

I prefer the session to be comfortable for the client, therefore encourage them to choose a preferable outside place based on a better quality of light. For example, a local park, garden or beach. However, this is something that we can discuss.

How long will the session be?

The Digital Package is 1.5hrs long. However, this can be extended depending on your requirements.

Can I bring pets on the shoot?

Of course! For example, your dog will be part of your family so it could be important to include them too.

How many people can I have on the shoot?

You can have as many people as you want to include in the photographs. For example, including the grandparents.

What should I wear?

Wear something that you feel comfortable in, however I love brightly coloured clothing as it always adds energy and excitement to photographs. Also, it is good to avoid large logos as they can sometimes distract from the subject... you!

Who owns the copyright?

We will both own the copyright.

How do I pay?

I accept cash, direct bank transfer or a PayPal transfer.

When will I receive the photos?

One to two weeks to review the photos and three to four weeks for the fulfilment of final photographs.

Can I change my date?

No problem. If you need to rearrange then please give as much notice as possible. Also, bad weather will often result in a postponed session.
